INFANTICIDE.-The body of a new born infant was found in the river yestirday .-From indications in the vicinity, it is supposed that it had been born upon the shore and made way with in this manner. No clue has yet been discovered to the inhuman mother.

Sig. BLITZ .- A broad grin may be seen on the faces of our citizens all over town this morning, from the mere announcement that Sig. Blitz is coming. No man in this age has attained such a world wide celebrity as Sig. Blitz, and we expect to advertisement see the City School House packed full on Wednesday and Thursday nights.

Of course, the telegraph ep erator was not responsible for the dispatch, as the Journal says, it was a private dispatch, but it was the truth nevertheless.

Accident -The team of M. D. Miller becoming frightened, yesterday morning, somewhere above the city, ran away, throwing the driver, a Mr. Mercer, from the wogon, which passed over his leg, pro ducing a compound fracture of the bone just below the knee. He was picked up by a coountryman coming into town and brought to the house of Mr. Miller, on Eagle street, where his injury was attend ed to by Drs. Thompson and Mahan. ***

The matter we believe has been referred to the Fire Association for adjustment -We refrain from making any further re marks on the subject until the Association shall have passed upon it. ***

DEMOCRATIC DISHONESTY .- It will be re membered that some time ago, the Deino craric newspapers all over the country published a disconnected extract from the speech of Carl Schurz, which taken as it was without the portions preceding or fol lowing would be understood as making light of the Declaration of Independence, but which was indeed only introduced to APPLESshow how Douglas would be compelled to read the Declaration, if his views were cor- BACONrect. Some few Democratic journals, hav ing their attention called to the portions of the speech going before and following the extract, had the honesty to make the amende honorable to Mr. Schurz for the great injustice done him. The number however CANDLES was few compared with those who have persisted in this dishonorable misrepre- CHEESEsentation of a pure patriot. What does our brother of the Journal think of Linton Democracy?

We have heard of distinguished Demo crats in this city who have expressed a like preference with Vesuvius Johnson, and now we hope that the cry of "negro lovers" will be applied where it belongsto the Democracy.

STILL ANOTHER TRIUMPH .- Right on the heels of the tripple triumph obtained in Indiana, Ohio and Pennsylvania, our citizens are pointed to another, although of a different cast, yet of like brilliancy-the great achiexement of Edsall, McDougal & Co., in being able to present to the ladies of Terre Haute and vicinity, the most beau tiful, most varied and most attractive stock of goods ever brought to this mar ket. How they can afford to sell them at rates below manufacturer's prices, is a mystery into which, we presume we have no right to inquire. We only point out the leading facts in the case, leaving it to the ladies of the city to investigate the matter at their leisure.

American Watches MADE BY THE

American Watch Company. OF WALTHAM, MASS. To the Public.

Attention is invited to the following state-

the fear of loss on their stock of imported watch-

Their sale has been constantly on the increase ever since the business was commenced; thus proving that they have grown into popular fa-ver throughtkeir intrinsic merits. As an evi-dence of the extent to which the; have received the endorsement of the public, we may state, that upwards of Thirty Thousand of them are now in daily use in the United States, giving perfect satisfaction to their awners.

This result has been effected in the teeth of the most determined and violent opposition from the greater part of those in the Watch Importing Trade in the large cities, who have systematically used all their influence with their customers, o discourage their dealing in an article which threatened, by its superiority to displace the foreign watch to a very large extent. Notwithstanding this, however, the watches have sleadily gained in the estima' tion of the people, the retailers have been con-strained to kee, them to supply the demand, and by degrees, we are happy to add, their prejudi-ces and alarms are being dissipated.
